

KAVYA B

FULL STACK DEVELOPER

kavyababuji@gmail.com | +91 8921182758 | [LinkedIn](#) | [GitHub](#)

SUMMARY

Full Stack Developer with 3.9 years of experience in building scalable web applications using modern frontend and backend technologies including React.js, Node.js, Vue.js, Laravel, and MongoDB. Expanded expertise into the MERN stack (MongoDB, Express.js, React, Node.js), developing responsive web apps with React, Redux, and Tailwind CSS. Eager to leverage my full-stack experience and MERN expertise to build user-focused, high-performing web solutions.

WORK EXPERIENCE

Full Stack Developer , Skyislimit Technologies Pvt Ltd, Kochi Apr 2021 - Jan 2025

- Engineered and executed a seamless database migration from MongoDB to Oracle.
- Performed root cause analysis to identify bugs and rolled out fixes to production within 24 hours.
- Architected and implemented RESTful APIs using Laravel, facilitating seamless communication between front-end and back-end systems.
- Collaborated with QA and mobile (Flutter) teams in an Agile environment to deliver reliable, cross-platform application features.

CERTIFICATIONS AND LICENSES

from Orisys Academy for Skill Development and Research, NSDC.
Covered front-end technologies (HTML, CSS, JavaScript) and gained hands-on experience with the Laravel back-end framework.

SKILLS

- Languages : HTML5, CSS3, JavaScript(ES6+)
- Frontend Frameworks/Libraries : React.js, Redux Toolkit, Vue.js, Tailwind CSS, Bootstrap
- Backend Frameworks/Technologies : Node.js, Express.js, Laravel
- Database : MongoDB, Oracle DB
- Version Control: Git, GitHub, GitLab
- Deployment & Platforms : Netlify, Vercel, Render
- Testing & API Tools: Vitest, Postman
- Soft Skills : Problem-solving skills, Effective communication

PROJECTS

Saraswat Bank

A robust web and mobile CRM solution developed for Saraswat Bank to manage leads, sales, targets while tracking salesperson performance, incentives and achievements.

- Tech Stack : Laravel, Vue.js, Oracle, API Integration
- Designed and developed a scalable web and mobile CRM system for Saraswat Bank to manage leads, sales, targets, and team performance.
- Built and optimized RESTful APIs to ensure seamless integration between the web platform and mobile application.
- Prepared technical documentation for API endpoints, improving developer onboarding and maintenance efficiency.
- Performed data migration from MongoDB to Oracle, ensuring data integrity, consistency, and improved query performance.

Leadfokuz

A customizable CRM platform designed to manage leads and field sales operations through integrated web and mobile applications.

- Tech Stack : Laravel, Vue.js, MongoDB
- Developed backend features in Laravel for lead management, sales tracking, and report generation.
- Created and integrated RESTful APIs to connect the web platform with the mobile application.
- Built responsive front-end components using Vue.js to improve user experience and workflow efficiency.

TransitBee | (MERN Stack Training Main Project) | [GitHub](#) | [Live](#)

Developed a responsive, full-stack movers and packers web application using MERN Stack, enabling users to browse providers, book services, chat, and make secure online payments.

- Tech Stack : MERN(MongoDB Atlas, Express.js, React, Node.js), Stripe, Cloudinary, Shadcn
- Implemented real-time chat between users and providers using Socket.IO, improving communication and booking coordination.
- Built role-based modules (User, Provider, Admin) with secure authentication, authorization, and KYC verification.
- Integrated Stripe payments and Cloudinary file uploads, with MongoDB Atlas for scalable cloud database management and full production deployment.
